

New Innovative and Compact **Flexi-Wing[®] Packaging**

Same industry leading perimeter seal that's now easier to handle!

The new rolled Flexi-Wing[®] product packaging now makes the perimeter door seal you've come to know and trust, significantly easier to transport and handle onsite without compromising performance.

The challenges of handling lengths long straight lengths of Flexi-Wing[®] is now a thing of the past. The new rolled packaging allows for:

- Easier more cost-effective transportation to site.
- Easier storage and movement on site.
- Reduced packaging waste helps to achieve more sustainable outcomes.
- Lower costs through improved handling and reduced waste.

ORDER TODAY

- Available only for doorsets (SDS, LSDS, DDS, LDDS) in cartons of 20 units.
- Utilise the same Product Codes with a trailing "-R" at the end, e.g. IS1212FW-SDS10-R.
- Available from 25 March 2024.

Note: Current non-rolled products remain available for all individual lengths and doorsets.
